Seamless order preparation

The screenshot displays a kitchen display system (KDS) interface. At the top, there is a navigation bar with the following elements: a square icon, a tab labeled 'All', a tab labeled 'To cook' with a count of 9, a tab labeled 'Ready' with a count of 10, a tab labeled 'Completed' with a count of 11, a 'Recall' button with a circular arrow icon, and a 'Close' button with a right-pointing arrow icon. Below the navigation bar, the interface is filled with a grid of order cards. Each card represents a specific order and includes the following information: the order number and name (e.g., T5 (#803)), the staff member assigned (Mitchell Admin), the number of items (indicated by a person icon and a number), a 'To cook' button, a timer icon with a duration (e.g., 13'), and a list of items (e.g., 1x Margherita, 1x Bacon Burger, 1x Cheese Burger). The cards are color-coded: T5, T12, and T7 are white; T6, T7, and T7 are pink; T13, T2, and T13 are green. The cards are arranged in a grid, with some cards having a 'To cook' button and a timer, while others have only a timer.
